

OPERATORS LEADING CAPITAL

AN INVESTMENT FUND FOCUSED ON RECURRING CASH DISTRIBUTIONS

FUND 1 • \$200M

Private & Confidential

EXECUTIVE SUMMARY

OBJECTIVE

To acquire and rehabilitate under-optimized B2B software businesses, restore operating margin within four quarters, and begin distributing surplus cash to investors at an early stage.

DIFFERENTIATION

- Focus on operating cash generation rather than growth projections
- Targeting early and recurring LP distributions
- No reliance on financial leverage
- 100% ownership and centralized operational control

FUND OVERVIEW

- \$200M target fund size
- 10-year closed-end structure
- Operating cash funds up to 11 additional acquisitions
- DPI = 1 by Yr 5

ILLUSTRATIVE LP RETURNS

INVESTMENT STRATEGY

WHAT WE BUY

We buy durable, AI-resilient software—not growth stories. We assess each target on its future cash-flow potential, then implement our repeatable operating model to convert that potential into recurring, high-margin cash flow.

CRITERIA

- B2B software (SaaS or on-premise)
- \$10–40M Annual Recurring Revenue
- High gross retention (target ~90%+)
- Under-optimized or operationally inefficient
- Limited strategic buyer interest

EXCLUSIONS

- Venture-stage growth
- We don't absorb leverage
- Customer acquisition-dependent models
- Commodity software and task-based tools sensitive to AI-replacement

WHY WE BUY

REVENUE DURABILITY

- Software delivering impact to the Cx bottom line
- System of record proximity
- Recurring contracts
- Gross retention typically 85%–95%

IP DEFENSIBILITY

- Proprietary architecture
- Embedded enterprise workflows
- Regulatory or sector-specific complexity
- Patents where applicable

AI RESILIENCE ASSESSMENT

- Can the product be easily replaced by generative AI?
- Is the software mission-critical?
- Does it sit inside regulated or compliance workflows?

The margin recovery path is repeatable: We take advantage of clear cost misalignments and immediate cost reduction opportunities based on our operating model and a disciplined spend allocation.

MARKET OPPORTUNITY: WHY THIS STRATEGY NOW

The current environment creates a pricing and execution advantage for disciplined operators with centralized integration capability.

CAPITAL DISLOCATION

Private capital has concentrated on high-growth and AI-branded assets, reducing competition for under-optimized mid-market SaaS

INTEREST RATE ENVIRONMENT

Higher rates have increased debt servicing pressure and reduced refinancing options for sub-scale software businesses

CONSTRAINED BUYER UNIVERSE

Many under-optimized SaaS assets lack strategic buyers and fall below the scale threshold of larger PE firms.

UNDER- OPTIMIZED COST STRUCTURES

Legacy SaaS businesses often operate with venture-style cost bases inconsistent with recurring revenue profiles.

Unlike traditional buyout strategies that depend on leverage and exit multiples, our model is designed to recover capital from an existing customer base before valuation risk becomes material.

PROPRIETARY OPERATING SYSTEM: VALHROS

Valhros is the backbone of our full investment lifecycle.

INTELLIGENCE SYSTEM

- Search and identification of targets
- Pre-acquisition technical IP assessment
- Margin modelling and cost benchmarking
- Integration playbooks
- Ongoing financial monitoring
- Governance and audit logging

KEY VALUE

- Standardizes underwriting
- Reduces execution variance
- Embeds institutional memory
- Reduces key-person risk
- Speed to market - due diligence is completed in less than one hour - decisions can be made in less than a week

RISK ASSESSMENT

- IP defensibility
- Competitive replacement risk
- Exposure to AI substitution
- Reverse-engineering vulnerability

Built in-house: Valhros is operational NOW and compressing processing time from months-to-hours and weeks-to-minutes. **Every decision is informed by the sum-total of our corporate knowledge and experience in real-time.**

VALHROS OUTCOMES

- Decisions are **faster, more consistent, and repeatable across the portfolio**
- **Institutional knowledge is embedded, not person-dependent**
- **Diligence, execution, and operations are continuously linked, not siloed.**
- **Human operators remain accountable at every critical decision point**

Why this matters to LPs: Valhros enables rapid, consistent application of our operating framework across the portfolio.

LP Upside: Where appropriate, LPs may be given structured access to Valhros-enabled diligence outputs to support their own investment evaluation and portfolio oversight processes.

PORTFOLIO COMPANY REVIVAL: REVENUE TO CASH

FIRST 90 DAYS

- Zero-based budgeting
- Headcount and vendor reset
- Product rationalization
- Pricing discipline

STABILIZATION (Q2–4)

- Centralized shared services
- Net margin normalization to 50%+
- Operating discipline
- Value-based Product Roadmap

CASH HARVEST

- Operating cash flow surplus
- Surplus directed toward:
 - Additional acquisitions
 - Return of capital
 - Preferred return
 - Ongoing distributions

Why success is predictable: Durable revenue + operational reset + early capital recovery = a controlled risk-adjusted outcome.

FUND TIMELINE

The fund compounds value by stabilizing durable software revenue and systematically expanding the recurring revenue base.

ILLUSTRATIVE FUND-LEVEL PERFORMANCE

TVPI	0.8	1.8	3.3	4.7	5.3	5.9	6.1	7.1	8.0	12.2

Portfolio valuation reflects the aggregation of recurring revenue across the platform, not dependence on terminal exit multiples.

Disclaimer: Results are based on prior investments and turn-around performance projects. Prior performance is not a guarantee of the performance of any future fund. Results do not consider applicable taxes. Valuation is a projection and estimate based on current market valuation data and is not a commitment of future performance.

STRUCTURAL RETURN ENHANCEMENTS

I. Economic Alignment & Capital Efficiency

Operating Cash–Funded Efficiency

- Management fees supported by portfolio operating cash over time
- Reduces net capital drag and improves capital efficiency
- Capital recovery driven by cash generation, not exit timing

Self-Funded Portfolio Expansion

- Later-stage acquisitions funded from stabilized portfolio cash flow
- Reduces incremental LP capital requirements
- Enhances capital efficiency per invested dollar

Defined Capital Allocation Discipline

- Operating cash prioritized for capital return and preferred return
- Reinvestment capped under fund policy

Conservative Valuation Framework

- Portfolio valued at 1:1 ARR (no forward projections or multiple expansion)
- Avoids reliance on terminal multiple assumptions
- Provides LP-aligned valuation transparency

A proven operating model, structured from inception with embedded LP economic alignment and conservative valuation discipline.

STRUCTURAL RETURN ENHANCEMENTS

II. Incremental Value Drivers (Not Underwritten in Base Case)

Selective IP / Source Code Monetization

- Sale of portfolio company IP (source code) to strategic buyers where appropriate
- Converts embedded IP into incremental cash
- Not assumed in base-case financial projections

Strategic Portfolio Exit Optionality

- Aggregated, un-leveraged, and high-margin platform may command premium earnings valuation
- An early exit scenario is pursued opportunistically, not as a return dependency

The base case is driven by operating cash; incremental value drivers are selectively realized within a deliberately LP-aligned Fund I structure.

RISK FACTORS & MITIGATION

REVENUE ATTRITION

- Focus on high-retention assets
- Early pricing and cost reset
- Intensive retention strategies

INTEGRATION RISK

- Centralized playbook
- Repeatable integration model
- Strict spend allocation

AI DISRUPTION

- Focus on mission-critical, embedded, workflow-dependent software with high switching cost.
- Exclude easily commoditized software
- Software development operates at the leading edge of AI adoption

REGULATORY & STRUCTURAL

- BVI governance
- Third-party administrator
- Independent counsel

Risk oversight is formalized through a structured risk register reviewed monthly at the portfolio and fund level.

PORTFOLIO COMPANY DEAL PIPELINE

Deal funnel from July 1, 2026 to Sep 10, 2026

- Valhros monitors over 280,000 software companies daily.
- 148 distress signals trigger automated assessment, with qualified targets advanced into the deal pipeline.
- Speed of identification is critical as under-optimized companies move quickly to disposition.
- A targeted outreach to investment and commercial banks, brokers, and VC funds approaching term-end will commence upon fund close.

Market conditions are ideal for our strategy: stiff fund-raising headwinds, capital concentrated on AI-branding, stranded software assets. Currently, we have identified 77 companies that qualify for our mandate, ready for due diligence.

DISCLAIMER

The information contained in this presentation ("Presentation") (a) is provided as at the date hereof and is subject to change without notice, and (b) is not to be considered as a recommendation that any person make an investment in the limited partnership (the "Fund"). An investment in the Fund is speculative and involves a number of risks that should be considered by a prospective investor. The information contained herein has been prepared to assist interested parties in making their own evaluation of the Fund and its anticipated business and does not purport to contain all the information that prospective investors may require. Prospective investors should conduct their own investigation and analysis of the Fund and its anticipated business and the information contained in this Presentation as well as any additional information provided by the Fund. The information contained in this Presentation is not to be used for any other purpose. No securities commission or similar authority in Canada, the United States or any other jurisdiction has reviewed or in any way passed upon this document or the merits of any securities described herein and any representation to the contrary is an offence. This Presentation should not be construed as legal, financial or tax advice. This Presentation contains "forward-looking information" or forward-looking statements" within the meaning of Canadian securities legislation. All statements included herein are forward-looking, other than statements of historical fact, including without limitation statements relating to: pro forma modelling, expected returns, budgets, business plans and strategies, the successful acquisition of companies, the size of the Fund and the ability to raise funds. Generally, the forward-looking information and forward looking statements can be identified by the use of forward looking terminology such as "plans", "expects" or "does not expect", "is expected", "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates" or "does not anticipate", "will continue" or "believes", or variations of such words and phrases or state that certain actions, events or results "may", "could", "would", "might" or "will" be taken, occur or be achieved. Statements concerning mineral resource estimates may also be deemed to constitute forward looking information to the extent that they involve estimates of the mineralization that will be encountered. The material factors or assumptions used to develop forward looking information or statements are disclosed throughout this Presentation.

NO OFFER OR SOLICITATION

This Presentation does not constitute an offer to buy or sell or a solicitation of an offer to buy or sell any securities in any jurisdiction to any person to whom it is unlawful to make such an offer or solicitation in such jurisdiction. This Presentation is not, and under no circumstances is to be construed as, a prospectus, an advertisement, or a public offering of securities in the United States, Canada or any other jurisdiction. The distribution of this Presentation and the offering of any securities of the Fund in certain jurisdictions is restricted by law. ANY SECURITIES OFFERED BY THE FUND IN CONNECTION WITH THE DISTRIBUTION OF THIS PRESENTATION HAVE NOT BEEN AND WILL NOT BE REGISTERED UNDER THE UNITED STATES SECURITIES ACT OF 1933, AS AMENDED (THE "SECURITIES ACT") OR QUALIFIED FOR DISTRIBUTION BY WAY OF PROSPECTUS UNDER ANY APPLICABLE CANADIAN SECURITIES LAWS. ANY SECURITIES TO BE OFFERED BY THE FUND IN CONNECTION WITH THE DISTRIBUTION OF THIS PRESENTATION HAVE NOT BEEN AND WILL NOT BE APPROVED OR DISAPPROVED BY THE SEC, THE ONTARIO SECURITIES COMMISSION OR ANY OTHER U.S., CANADIAN, STATE, PROVINCIAL OR OTHER REGULATORY AUTHORITY, AND WILL BE OFFERED AND SOLD SOLELY IN RELIANCE ON (I) IN THE UNITED STATES, THE EXEMPTION FROM THE REGISTRATION REQUIREMENTS PROVIDED BY THE SECURITIES ACT AND RULES AND REGULATIONS PROMULGATED THEREUNDER (INCLUDING SECTION 4(A)(2) OF THE SECURITIES ACT OR REGULATION S UNDER THE SECURITIES ACT), (II) IN CANADA, TO PERSONS WHO ARE "ACCREDITED INVESTORS" AND (III) OFFSHORE, AVAILABLE EXEMPTIONS FROM THE PROSPECTUS, REGISTRATION OR OTHER SIMILAR REQUIREMENTS IN SUCH OFFSHORE JURISDICTION. This Presentation is for the confidential use of only those persons, and their respective representatives, to whom it is transmitted. By their acceptance of this Presentation, recipients agree that they will not transmit, reproduce or make available to anyone, other than their respective representatives, this Presentation or any information contained herein. An investment in the Fund is highly speculative and is only suitable for investors who have a long-term investment horizon and a high tolerance for risk in their returns and are prepared to risk the loss of their entire investment. Refer to the subscription agreement for a list of certain risk factors identified by the Fund.

PURCHASER’S RIGHTS

PURCHASER’S RIGHTS This document may, depending on the circumstances, constitute an offering memorandum under the securities legislation of certain jurisdictions of Canada. In such case, applicable securities legislation provides certain purchasers of securities pursuant to an offering memorandum with a remedy for damages or rescission, or both, in addition to any other rights they may have at law, where the offering memorandum and any amendment thereto and, in some cases, advertising and sales material used in connection therewith, contains a “misrepresentation,” as defined in the applicable securities legislation. A “misrepresentation” is generally defined under applicable Canadian securities laws to mean an untrue statement of a material fact or an omission to state a material fact that is required to be stated or that is necessary to make any statement not misleading in light of the circumstances in which it was made. To the extent available, these remedies, or notice with respect to these remedies, must be exercised or delivered, as the case may be, by the purchaser within the time limits prescribed by applicable securities legislation and are subject to limitations and defences under applicable securities legislation. The following is a summary of the relevant rights of action for damages or rescission, or both, that may be available to certain purchasers residing in Ontario and is subject to the express provisions of the securities laws, regulations and rules governing such province and reference is made thereto for the complete text of such provisions. Such provisions may contain limitations and statutory defences not described here on which the issuer and other applicable parties may rely. Prospective Canadian investors should refer to the applicable provisions of the securities legislation of their province for the particulars of these rights or consult with a legal adviser. The rights described below, if available, are in addition to and without derogation from any other right or remedy which Canadian purchasers may have at law and are intended to correspond to the provisions of the relevant securities legislation and are subject to the defences contained therein. Purchasers in Alberta, British Columbia and Quebec are not entitled to the statutory rights. In consideration of their purchase and upon accepting a purchase confirmation in respect thereof, these purchasers are hereby granted a contractual right of action for damages or rescission that is substantially the same as the statutory right of action provided to residents of Ontario who purchase securities of the Fund.

Ontario

Section 130.1 of the Securities Act (Ontario) (the “Ontario Act”) provides that every purchaser of securities pursuant to an offering memorandum shall have a statutory right of action for damages or rescission against the issuer and any selling security holder in the event that the offering memorandum contains a misrepresentation. A purchaser who purchases securities offered by the offering memorandum during the period of distribution has, without regard to whether the purchaser relied upon the misrepresentation, a right of action for damages or, alternatively, while still the owner of the securities, for rescission against the issuer and any selling security holder provided that:

(a) if the purchaser exercises its right of rescission, it shall cease to have a right of action for damages as against the issuer and the selling security holders, if any;

(b) the issuer and the selling security holders, if any, will not be liable if it proves that the purchaser purchased the securities with knowledge of the misrepresentation;

(c) the issuer and the selling security holders, if any, will not be liable for all or any portion of damages that it proves do not represent the depreciation in value of the securities as a result of the misrepresentation relied upon;

(d) the issuer and the selling security holders, if any, will not be liable for a misrepresentation in “forward looking information” (“FLI”), as such term is defined under applicable Canadian securities laws, if it proves that: (i) the offering memorandum contains, proximate to the FLI, reasonable cautionary language identifying the FLI as such, and identifying material factors that could cause actual results to differ materially from a conclusion, forecast or projection set out in the FLI, and a statement of material factors or assumptions that were applied in drawing a conclusion or making a forecast or projection set out in the FLI; and (ii) the issuer had a reasonable basis for drawing the conclusions or making the forecasts and projections set out in the FLI; and

(e) in no case shall the amount recoverable exceed the price at which the securities were offered.

Section 138 of the Ontario Act provides that no action shall be commenced to enforce these rights more than:

(a) in the case of an action for rescission, 180 days after the date of the transaction that gave rise to the cause of action; or

(b) in the case of an action for damages, the earlier of: (i) 180 days after the date that the purchaser first had knowledge of the facts giving rise to the cause of action; or (ii) three years after the date of the transaction that gave rise to the cause of action.

The rights referred to in section 130.1 of the Ontario Act do not apply in respect of an offering memorandum delivered to a prospective purchaser in connection with a distribution made in reliance on the accredited investor exemption if the prospective purchaser is (a) a Canadian financial institution or a Schedule III bank (each as defined in NI 45-106); (b) the Business Development Bank of Canada incorporated under the Business Development Bank of Canada Act (Canada); or (c) a subsidiary of any person referred to in paragraphs (a) and (b), if the person owns all of the voting securities of the subsidiary, except the voting securities required by law to be owned by directors of that subsidiary.
